If the odds are -110, that means you have to bet \$110 dollars for every \$100 you want to win.

Even when the line changes from -4 to -6 for example, it's usually remain -110 (or close to it) odds on both sides.

There are plenty of exceptions however, like when oddsmakers want to shade the line in one direction.

5, you might see Bucks -6 at -115 and Heat +6 at -105.

Point spread odds vary most in the NFL though, since each point can be quite important and valuable.

The difference between -2.

A team might be -2.

That's because getting +2.
