Are you a progressive type jackpot fan? How would you like four of them in the same game? If that is your thing then 88 Fortunes is a game tailor made for you, even if it was originally produced purely for an Asian land casino player audience.

The game to no one's surprise is a classic themed Asian slot, despite the ancient Chinese style it follows the modern 243 ways to win format and features a 10 spin bonus round that in theory at least can be endlessly retriggered.

80 in credits or 880 coins at a penny denomination, whilst you can play the game at a lower bet, the pay-table information suggests you have more chance of popping the grand jackpot at higher bet levels with some players stating that long term play reveals a 1-4 chance of hitting it if you get to the Fu Bat pick win bonus round.

Theme & Features

As you might expect from a Chinese themed game originally aimed at the Asian market the game is absolutely overloaded with symbolism, deep reds and golds dominate the machine case, display and reels and are supplemented by oriental style paper lists for the game features and win table descriptions.

There is a fixed wild in the game in the form of an elaborate tapestry which substitutes for all symbols but offers no wins in of itself and appears only on the 3 middle reels.

80 bet you will be forgiven for feeling slightly aggrieved!

Summary
The base values of the lower progressive jackpots could be a little higher and we wouldn't mind a little extra bonus action or 3D animation on the reels.

It won't appeal to high limit slot players either with such a low max bet.

How Many YouTube Subscribers Do You Need To Make Money

To generate revenue from YouTube ads, you need to join the YouTube Partner Program. YouTube requires members to have at least 1,000 subscribers, 4,000 watch hours and no active community strikes against your YouTube account.

Finally, sponsorships let you receive lump sum payouts from brands in exchange for creating dedicated videos for their products or including their products in your videos.

As for watch time, most YouTubers report receiving higher AdSense payouts for videos that are 10 minutes or more, even when shorter videos receive more views. This is because advertisers pay for watch time.
