Or was it?

The incident drew international attention, and by Monday morning Tesla shares had slipped. The company's chief executive, Elon Musk, questioned the media interest, tweeting on Tuesday: "Over a million combustion engine (it's ri) Tj T* BT /

sla car fire with no injuries gets biggest headlines. Why the double standard? T

his is a real question."

Users on a chat forum named Tesla Motors Club questioned whether the video was staged, saying the origins of the fire seemed "very nontypical" and the

orized that the bad press surrounding a burning Tesla would help Chinese-made electric cars gain an edge in the world's largest auto market. Other users dis

missed such comments as "conspiracy theories."

"It already impacted potential customers who usually come to France,"

said Diego Diaz, the head of SNCF International, France's state-owned railwa

y service. "The violence and fires were exaggerated."

Diaz also noted that while the protests affected tourism and train ticket cancel
