The question of how to play Midi and Mini Baccarat involves just a few decisions: how much you want to bet and whether to bet on the Banker, the Player or the Tie bet.

Winning Banker and Player wagers pay even money.

In Midi and Mini Baccarat, eight decks of cards are used, which are shuffled and placed in the shoe.

The second and fourth cards are placed face down until the Player's hand is called.

At this time, the second and fourth cards shall be placed face up for the Banker's hand.

Any additional cards needed to complete the hand will be drawn and exposed by the dealer.

The game starts with four cards dealt from the shoe, forming two hands; one called the Player's hand, the other the Banker's hand.

All tens and face cards, or any combination of them has no value.

[Image] Promising review: "I'm so happy with this mixer! I love the fact that I can mix my eggs, milk, honey, etc.

I was skeptical at first, but once I got it I was very happy! The price is very

reasonable, it's easy to use, and it comes with a stand mixer, and I don't

have to worry about having to take out my stand mixer when I need to whip up

a lot of ingredients.

I'm glad I bought it!" -Jenny 15.

It's perfect for mixing eggs with water, then you can get a scoop to make the
