Soccerway covers all the leagues around the world so you won't have any trouble finding the recent results of any club, even when it comes to reserve fixtures and research.

Soccerway is a very simple site that promises one thing: a chance for punters to compile research reports to help them gain an advantage over bookmakers. Sky Sports

It's not a site filled with tips or any standard research points you might require, but what it does provide is the latest news on player injuries and personal problems.

We stated above the site isn't filled with tips, but there is often a good read from Paul Merson who tips the Premier League and domestic cup games, and most of the time he's not far off. Odds Comparison

Odds comparison sites aren't your usual run of the mill football tips websites, but they are sites that should be bookmarked.

Before you place a bet with your usual bookie, look at comparison sites to see which ones offer you the best chance of profiting more with the same bet. TransferMarkt

The site differs greatly to the likes of Sky Sports because it has more detailed information as far as player transfer prices are concerned.

It'll give you a chance to get information on a match that bookies don't necessarily have access to.
