To read more about game diversity and selection, click on over to our games section.

Some games count more towards your wagering requirements than others. The operator below blew us away with its exciting titles, all of which come from the biggest and most celebrated names in the industry.

Gambling Laws and Authorities in Malta

The MGA is the gold standard for legitimate casinos, and the best online casino

Malta players can use will not have its seal of approval.

For a solid overview of the legal situation in Malta, we'd recommend paying special attention to the Gaming Act 2018, Gaming Definitions Regulations 2018, Gaming Tax Regulations 2018 and the Electronic Communications Act.

6 million tourists each year, many of whom flock to the island's six luxurious casinos.

While there are so many fantastic and safe online casinos on the Maltese market,

we believe that Playzee is the top online casino in Malta overall based its welcome offer, mobile experiences and games library.

Hence, sites that offer the most options, the lowest fees, and the fastest transaction speeds will always rank higher with us.

Sports betting odds differ from sport to sport and from one betting site to another.

GCash is one of the safest and most popular mobile wallets used in the Philippines.

Once you have funded your account, click "Sport" from the top menu and select either the iGK or UG betting platform.

Another perk of online betting in the Philippines using GCash is that many sportsbooks provide VIP or loyalty programs that players can benefit from.

We have outlined the alternative and most common banking methods below. Bank Transfer

Cryptocurrencies operate on blockchain, and, as such, are not connected to a central financial institution.

As with any other payment method, there are certain pros and cons to online betting in the Philippines using GCash.

Betfair and Paddy Power are now offering betting on Expected Goals (xG) in the Premier League

The way we analyse football continues to evolve with data playing a bigger part in the game than ever before.

: Was the goal on the counter? Was it off a rebound? Had the defence been at fault?

How the shot was taken: Was the shot made with the foot or through a header?

Was the shot made with the foot or through a header? Passage of play: Did the ball

Goal come via a set-piece or a corner, or was it from open play? Expected goals

is very much about the context of a scoring opportunity.

Paddy Power West Ham v Leicester Expected Goals market - Odds Correct as of 16:23
