What Are College Football Consensus Picks?

By aggregating exclusive data from some of the top online sports betting sites, our college football consensus page shows you what kind of action oddsmakers are taking on each and every game.

Check this out:

Here, we see that 58% of bets are on Army, leaving 42% on Navy.

By clicking on "Total" we can then see the betting percentages for th

e Over and Under.Fading The Public

College bettors also tend to bet on the Over, especially with the proliferation of spread offenses across the country.

One game's spread may be a great opportunity to fade the public, another ma

y not.
