Chumba, like its sister sites Global Poker, and Luckyland Slots, uses two types of coins for play: Gold Coins/Sweeps Coins. For one thing, you can play games in almost any location. One of the best things about online casinos vis-a-vis land-based games is the opportunity to redeem bonus offers.

Online casinos are not much different from the real-life versions.

If a casino, live or online, has table games, it is almost certain to have blackjack.

If the casino offers a demo or free version, you may want to give it a try to get used to the speed of the game.

Unfortunately, craps are not as likely to be featured in online casinos like blackjack and roulette.

Evaluating Brainly - Schoolwork Q&A

Four edtech entrepreneurs visited our HBS ETIE class last week to discuss their

ventures and describe their product and business development processes. From this

discussion, I learned about Brainly, a schoolwork Q&A startup that is trying

to add a social element to existing solutions in the space. The startup has 3

0 million visitors per month, presence in 35+ countries, and \$9m in funding.

Those are very impressive numbers for a relatively young startup. While I wasn't

able to find details on their average response time for questions, I assume

it will be relatively low because of the number of active users.

Here is my analysis of the product.
